

A. R. HARTMAN,

County Judge, Rockwall County.

2

Rockwall, Texas,189.....

I desire to call your attention to another fact

If Mr Lewis (Kaufman Co's Surveyor) could move the S.W. Corner of Hunt County one and one half miles north, he or some other Surveyor could move that corner ten miles north. Now, suppose that some Surveyor should discover, that the true Corner of Hunt County was ten miles north of the point recognized by the legislature when Rockwall County was created, as the Corner of Hunt Co. and you should decide that the south line of Rockwall County should follow. The removal of the S.W. Corner of Hunt Co. What would be the result? The result would simply be the utter annihilation of Rockwall County. I suggest, that if you can remain the S.W. Corner of Hunt Co, one and one half miles north, you can remove it ten miles, and wipe Rockwall County. Draw the map of the State of Texas.

after due investigation and consideration
of the inclosed question and the action taken
by my predecessors, places the matter beyond
the control of the Head of this department
for any other solution of the question and
the only relief I can see is through the
power of the Legislature now in session

W. L. McLaughley

OFFICE OF

A. R. HARTMAN,

County Judge, Rockwall County.

3

Rockwall, Texas,

189.....

It was unquestionably the intention of the Legislature to Create Rockwall County with her lines running North & South 12 miles long, and her lines running East and West 14 miles long.

Genl. Griffith. was present in Austin, when the bill creating the County was passed, and he remembers, that the map of Hunt & Kaufman Counties. were before the Legislature when the bill creating the County was passed, and that the Corner of Hunt Co was, as then recognized. Known to the members of the Legislature - Judge A. N. Watts, who engineered the bill remembers the same thing.

If we loose this strip we loose one eighth of our Territory.

I assure you, that 9 tenths of the people of Kaufman County believe and say, that, the disputed Territory, ought to be given to us.

Our County ~~is~~ is now too small, and

A. R. HARTMAN,

County Judge, Rockwall County.
4

Rockwall, Texas, 189.....

To lose one eighth of our Territory
 taxable values and population, will
 be disastrous in the extreme to us.
 Feeling Confident that you will do what
 you conscientiously believe to be
 right, I submit the settlement of the
 vexed question to you & hope
 for an early and favorable decision.
 I am most respectfully yours
 A. R. Hartman
